

DID YOU FALL IN LOVE WITH ME

Joan Besen Prairie Oyster SOCAN/ASCAP Polka version by John Gora & Gorale
"FOLLOW ME" SNCD180 in year 2000 – Grammy Nominated

The signs of love can be hard to see
As the eye of a needle in the candle light
But I thought I saw them in your eyes
As I took you home last night

***Did the stars shine brighter on the night we met
Were the blossoms sweeter in the tree
Did the song bird sing in your heart when we kissed
Did you fall in love with me, did you fall in love with me***

The northern lights give a ghostly glow
It's hard to tell if they're really there
But I thought I saw the ghost of a smile
When my hand brushed against your hair

Did the stars shine brighter.....

Sometimes the one that you really love
Slips away and you don't know why
But I thought I saw you hesitate
When we said our last good-bye

Did the stars shine brighter.....
