*I got my education, out behind the barn
I ain't no fooling no siree
passed each examination, out behind the barn
and it almost made a wreck out of me*

1/ My pappy used to tan my hide, out behind the barn
He taught me to be dignified, out behind the barn
When he took that strap to me and turned me down across his knee
He sure did hurt my dignity, out behind the barn

I got my.....

2/ I smoked my first cigarette, out behind the barn
That's one day I won't forget, out behind the barn
I got sick, you should've seen how that tobacco turned me green
I almost died of nicotine, out behind the barn

I got my.....

Horns

3/ I met a pretty girl one day, out behind the barn
She wanted me to stay and play, out behind the barn
She taught me how to kiss and pet, that's one game I won't forget
I wish we played that same game yet, out behind the barn

I got my.....

4/ I wish that I could go again, out behind the barn
And do the things that we did then, out behind the barn
You may think it ain't much fun to be a poor old farmer's son
You just don't know what we've done, out behind the barn

*I got my..... **Horns Out***
