Polka version by John Gora & Gorale "Duty Free Polkas" SNCD154 in 1997 Grammy Nominated

1/ The roof just sprung a new leak, the forecast says more rain.  
We've got our work cut out just keepin' dry.  
The kids could use some new shoes, the house a coat of paint,  
Somehow we always manage to get by, 'Cause we know you and I.

*Ref: Oh, oh, Love don't get better than this,  
I still feel that same thrill when we kiss.  
Let the world fall apart face to face and heart to heart,  
Oh love don't get better than this.*

2/ I don't hear your complainin', but I see it in your eyes.  
Things haven't gone too well for you today.  
We've had our dreams of mansions, life cuts us down to size.  
There've been some disappointments along the way.  
Still we smile when we say.... Oh,oh,

*Ref: Love don't get better than this, I still feel that same thrill when we  
kiss.  
Let the world fall apart face to face and heart to heart,  
Oh love don't get better than this.*

*Bridge: Fools may search for gold, but havin' you to hold,  
Makes me the richest man I know,  
Oh love don't get better than this*

*Love don't get better than this,  
I still feel that same thrill when we kiss.  
Let the world fall apart face to face and heart to heart,  
Oh love don't get better than this.*
