

# **Girls, Girls, Girls – Polka**

John Gora & Gorale "Polka Playin' Fool" KMCD127 in 2009 Original Polka done by Eddie Blazonczyk's Versatones BMI

Everywhere that I go a girl is waiting  
I tell her sweet things, and we go dating  
I whisper things in their ears like "You're my only"  
And "You will never, ever be lonely"

*Girls, girls, girls, they're all made to love  
Made to kiss and hug and take advantage of  
Girls, girls, girls, all have one goal in life  
To get some single fella and become his wife*

There's this girl way out east her name is Terri  
I told her someday, that we might marry  
Way out west there's this girl her name is Betty  
She's crazy about me, we're going steady

Way up north there's this girl that I call Honey  
She's not so pretty, but she's got money  
Way down south where it's warm I got my Sandy  
And when I'm lonely, she comes in handy
