1/ Late in the night we walk hand in hand
Gaze at the stars above, thinking only of love
But one thing that's sure like those stars above
Forever I, Promise You Love

*And maybe the stars shine for us tonight
Only for us, on this most special night
And maybe they shine bright for you and for me
So the world, can see that we're in love*

2/ Together, we'll walk, arm in arm as one
Forever You and I, with Blessings from Above
And just like those stars in the sky above
Forever I, promise you love

3/ As much as I wish, I can't promise you
All of the things in life, that I would wish for you
But one thing that sure as those stars above
Forever I, Promise You Love
