

THAT SWEET SOUND - Polka

As recorded by John Góra & Górale on "Pangora's Box" SNCD125 in 2004
Composed by © Heidi Klose & John Gora. Grammy Nominated

1/ In this world of hectic living In this world with so much stress
All you do is keep on giving Till there is no happiness
When my head is really spinning As the world goes round and round
And I don't feel much like singing Then I hear that lovely sound

Chorus:

*I can hear it in the distance I can hear it in my mind
And I think of all the good times, happy memories I can find
I am back with friends and family, on the dance floor in a hall
If that band plays polka music, I need nothing else at all*

2/ Yes I see the people dancing As they twirl around the floor
Some are hopping, some are prancing But I love it more and more
Smiling faces, happy people As the band gets into swing
That accordion, oh those trumpets Yes it makes my heart to sing

3/ Play the polka that great music Keep on making that sweet sound
Cheerful folks and endless dancing As they twirl around and round
Yes the world can keep on spinning I don't really give a care
There's no need to sing the blues now When there's a polka in the air
